'13 BUICK VERANO

COMPACT DEFINES ITS SIZE, NOT ITS STATURE.

Verano demonstrates how the definition of luxury today has evolved. It also represents a milestone for compact cars, offering all the accoutrements of authentic luxury – only in a smaller package. That means you gain the hallmarks of Buick refinement, from its sculpted contours and graceful design cues – to its exquisite craftsmanship and exceptionally quiet ride. Now in its second year of production, the 2013 Verano is about to take the compact luxury segment into an even more compelling direction, thanks to the introduction of an available 250 horsepower 2.0L ECOTEC® turbocharged engine. It's yet another way that Verano proves how you can get more from less, with the efficiency of a small displacement engine and yet the power needed for responsive performance. Verano makes a strong impression in other areas as well – from the enhanced safety of 10 standard airbags to the interactive entertainment provided by Buick IntelliLink™. Compact luxury as only Buick could imagine it – the 2013 Verano.

"EXCESSIVE COMPETENCE, QUIET PROFICIENCY, CALL IT WHAT YOU LIKE, THE VERANO IS LOADED WITH THE STUFF AND IT'S ALL WITHIN A QUIET, SOLID AND ATTRACTIVE BUICK SHELL."

– Edmunds.com, October 2011

Verano has already redefined the compact car with its upscale driving experience. The introduction of the available 2.0L ECOTEC® turbocharged engine takes Verano into previously uncharted territory, thanks to the prodigious 250 horsepower and 260 lb.-ft. of torque output. The engine generates all this power from just 1988 cc of displacement. That translates into a high level of performance combined with impressive fuel efficiency. The output is enhanced by the engine's dual-scroll turbo technology, adding up to 20 psi of boost from an intercooler that cools

air intake temperature by almost 100 degrees C (212 degrees F). The result is an anticipated 0-96 km/h (60 mph) acceleration time of just over six seconds. Other features reduce fuel consumption, such as direct injection and Variable Valve Timing (VVT) that optimizes combustion timing, not only increasing efficiency but also torque. Pair the turbo with the available six-speed manual transmission and you have a sport sedan worthy of your favourite drive. It's just yet one more way that Verano is rewriting the rulebook – while feeding your enthusiasm for driving.

ADD POWER TO THE EQUATION.

DRIVES WITH A STRONG GERMAN ACCENT.

When a car is praised for its Germanic feel, it sets up a high level of expectation. Verano delivers with a solid body structure that enables precise tuning of steering and suspension components. While that defines the technical side of Verano's performance, the advanced technology produces a feel for the road that is both interactive and intuitive. Power is supplied by the 180 horsepower 2.4L ECOTEC® engine that incorporates Variable Valve Timing (VVT) and direct injection

to achieve a highway fuel efficiency rating of just 6.2 L/100 km.* The engine is mated with a standard six-speed automatic transmission that includes Driver Shift Control for manual gear selection, creating a more engaging drive. Features like the StabiliTrak® electronic stability control system and four-wheel ABS with intelligent brake assist add to your precision control. A Teutonic approach to driving – without the Teutonic price tag.

* 2013 Verano equipped with 2.4L ECOTEC® I-4 engine and standard 6-speed automatic transmission. Based on GM testing in accordance with approved Transport Canada testing methods. Your actual fuel consumption may vary.

YOU CAN HEAR YOURSELF THINK – AND FEEL.

Verano invites you to focus on your driving – while eliminating distractions. The world today may cause sensory overload – that’s certainly not the case inside Verano’s remarkably hushed cabin, thanks to Buick’s exclusive QuietTuning® techniques. Also contributing to the calm tone is the ice-blue ambient lighting that helps you more easily locate areas like door handles and climate controls. And the same focus on precision that defines Verano’s handling also applies to its exquisite craftsmanship, as exemplified by the world-class fit and finish on display throughout the cabin. And premium soft-touch materials provide a tactile component to your driving. Because the way you feel is an essential part of the way you drive.

“THE DASH WAS ESPECIALLY PLEASING TO THE TOUCH, WITH TERRIFIC CONTRAST AND NICELY FINISHED MATERIALS.”
– *Autoblog.com*, May 2012

A

A Another way that Verano enhances comfort is with the available dual-zone automatic climate system that enables the driver and front passenger to select individual temperature settings.

B

B For added convenience, the available E-Z Key passive entry system includes a keyless ignition start, as well as passive entry/exit, and trunk release functions.

You can admire the understated elegance and upscale look of Verano’s cabin. But this interior also encompasses a wide range of features and attributes that are sure to make a strong impression on other senses as well. Your comfort is enhanced by standard front six-way adjustable sport bucket seats that provide exceptional support. You can take another step up in luxury with available features like heated front bucket seats with leather-appointed seating surfaces. You can also take the sting out of those cold winter mornings with the heated, leather-wrapped steering wheel – you

can even preheat the cabin using the available remote vehicle starter system. Perhaps the greatest luxury is a quality rarely found inside a vehicle – an absence of noise. Buick’s QuietTuning® techniques block, absorb and reduce unwanted noise from the road, wind – even from the engine compartment. These techniques include everything from sound deadeners throughout the cabin to wheels that are designed to suppress wind turbulence and tires that are engineered to minimize road vibrations. It’s what’s inside Verano, and in turn what it feels like inside you, that make all the difference.

Verano offers four different interior trim colours. Cloth seats are available in Titanium (A) and Cashmere (B). Leather-appointed seating is available in Choccachino (C), Ebony (main photo above) and Cashmere (D).

YOUR PERSONAL MEDIA LINK.

A

B

C

- A Buick IntelliLink™* allows you to stream music wirelessly from your smartphone and from your iPod® or other MP3 player using the Bluetooth® hands-free connectivity that's included with the available Convenience Group.
- B You can adjust Bluetooth®, IntelliLink™* audio system and cruise control functions using the standard steering wheel-mounted controls.
- C A standard USB port** enables you to plug in your iPod®, other MP3 player or other mass media device.

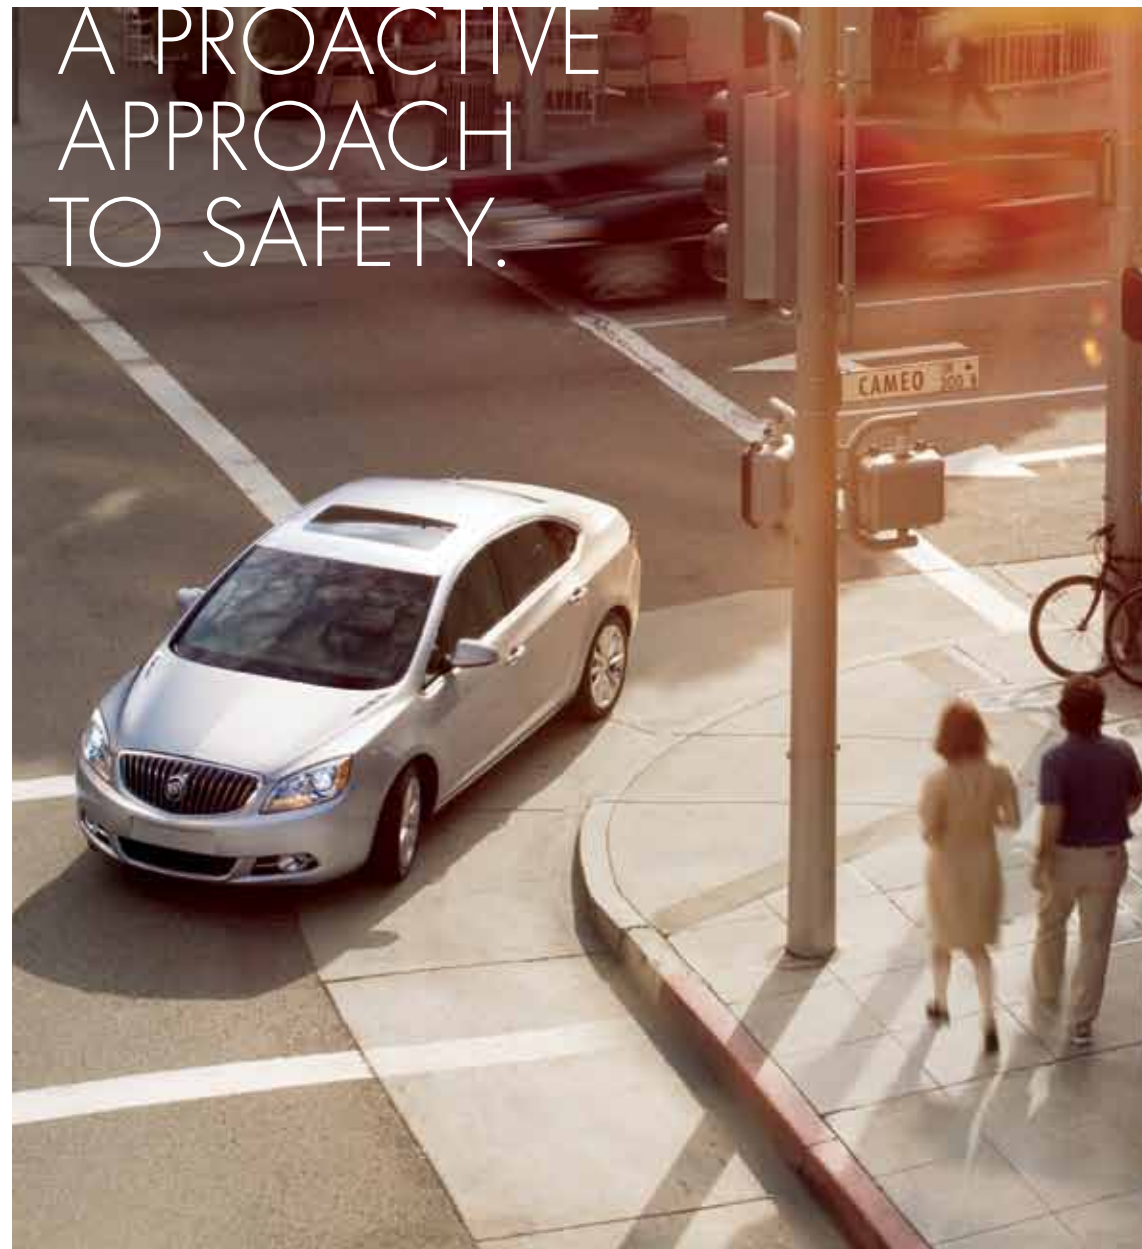

* Full functionality requires compatible Bluetooth® and Smartphones. Some devices require USB connectivity.

** Not compatible with all devices.

Buick IntelliLink™* represents an innovative technological solution, combining entertainment and connectivity. Want to play songs from your smartphone through the car's audio system? No problem – the available IntelliLink™* technology incorporates Bluetooth® hands-free connectivity for wireless streaming from your mobile devices. It also includes Stitcher SmartRadio™ and album art powered by Gracenote®. Want to choose your programming without taking a hand off the steering wheel? Voice-activation technology enables you to operate the entertainment system using voice commands. It also features a backlit, high-resolution LCD touch screen that makes integration of different entertainment sources and platforms seamless and simple. The array of programming choices increases even more with the available XM Satellite Radio™,† with its wide range of music, news, comedy and sports channels. You can even have IntelliLink™* custom configured at your dealership or at home to match your personal preferences. Entertainment personalized – with IntelliLink™*.

† Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period. Visit xmradio.ca for details.

A PROACTIVE APPROACH TO SAFETY.

Verano is engineered with an anticipation of the potential hazards on today's roads. A host of technologies, including the StabiliTrak® electronic stability control system and traction control, help you maintain control even when executing evasive manoeuvres. Additional available safety features make you aware of vehicles and obstacles around you, such as a rear vision camera and ultrasonic rear parking assist. But perhaps the most technologically sophisticated available feature is the Side Blind Zone Alert.* It employs radar technology to scan an arc on both sides of the vehicle. When another vehicle enters either of these zones, it triggers an LED symbol alert in the appropriate exterior rear-view mirror. If a collision can't be avoided, Verano offers the comprehensive occupant protection of 10 standard airbags. In other words, Verano offers all-round visibility, in addition to all-round protection. Now that's proactive.

* Before making a lane change, always check the Side Blind Zone Alert display, check exterior and interior rear-view mirrors, look over your shoulder for vehicles/hazards and start the turn signal.

ONSTAR® – A CLEAR DIFFERENCE MAKER.

How can one system do so much to enhance the safety, security and convenience of your driving? Read the long list of benefits that accompany OnStar® and you'll discover why so many people have adopted this important innovation in technology. OnStar® is standard on every Buick model, along with six months of the Directions and Connections Plan featuring Turn-by-Turn Navigation² and the OnStar Remotelink™ mobile app.³

Automatic Crash Response

In most collisions, on-board sensors automatically alert OnStar® that you've been hit. You don't have to do a thing. A specially trained Emergency Advisor is immediately connected to your vehicle. If you request help, or can't answer, emergency responders are sent to your precise GPS location. Advisors monitor the OnStar® network 24 hours a day, so there's always someone there to help when you need it most.

Emergency Services

When you need help, just push the Emergency OnStar® button for a priority connection to a specially trained Advisor.

Crisis Assist

During a natural or man-made crisis, OnStar® Advisors can contact emergency responders on your behalf, provide directions to help you get out of harm's way, locate a nearby hotel and help you connect with loved ones – at no extra charge.

Stolen Vehicle Assistance

If your vehicle is stolen, OnStar® works with police to attempt to recover it – swiftly and safely.

Roadside Assistance

If you find yourself stranded, you're never alone: with one push of the OnStar® button, Roadside Assistance can be on the way. An Advisor will contact a nearby dealership, towing service or gas station and send them to your precise location.

myBUICK app

Now Buick offers another aspect to its premium driving experience: a sophisticated complimentary app for your new Verano. It provides access to a series of useful features – right from your iPhone® or Android™ smartphone.⁵ That means you can perform functions like checking parking reminders or review a mobile Owner's Manual more conveniently anytime. The app also works with the OnStar Remotelink™³ mobile app to lock or

Remote Services

If you lock your keys in your car, OnStar® Remote Door Unlock can get you back in your vehicle in minutes. Call OnStar® and an Advisor will confirm your account information and security verification, and then can send a signal to unlock your doors. No locksmith. No hassle.

Turn-by-Turn Navigation

From the places you need to find, to places you haven't thought of yet, OnStar® Turn-by-Turn Navigation² connects you to your destination effortlessly. Just push a button for an Advisor to help you get anywhere. And, with OnStar®, you'll have the most up-to-date routes right at your fingertips.

Hands-Free Calling

Eyes on the road, hands on the wheel – OnStar®'s Hands-Free Calling⁴ keeps you connected. This built-in feature makes it easy to take full advantage of OnStar®'s robust network. Even in places where handheld cell phones are banned while driving, OnStar® enables you to call hands-free by purchasing minutes for Hands-Free Calling.

OnStar Remotelink™ mobile app

The OnStar Remotelink™ mobile app³ places the power of OnStar® in the palm of your hand. It gives you an amazing level of control and connection with your vehicle through your mobile device. It lets you access real-time vehicle data, like oil-life and tire pressure. With Remotelink™ you can lock and unlock doors or contact an OnStar® Advisor all from your smartphone. If you're a Subscriber with Directions and Connections, you can also find a location with OnStar Remotelink™ and send directions right to your vehicle.⁴

Vehicle Diagnostics

Every month, OnStar® automatically runs numerous diagnostic and maintenance checks on your vehicle's key operating systems, such as the engine, airbags and brakes. OnStar® Vehicle Diagnostics then sends you monthly email reports showing what's going on with your vehicle.

unlock your doors – even remotely start your vehicle (when factory equipped) right from your smartphone anywhere you have cell coverage. You can also check up on the status of vehicle systems, such as fuel level and remaining oil life. In addition, you can select a destination and have directions sent right to your vehicle. Another way of connecting with your vehicle: the myBuick app.

1. Visit onstar.ca for coverage map, details and system limitations. Services vary by model and conditions. OnStar® acts as a link to existing emergency service providers.
2. Requires OnStar® Directions & Connections Plan. Not available in certain areas. See coverage map for details.

3. Available on select iPhone®, Android™ and BlackBerry® (interim availability) devices. Services vary by phone, vehicle and conditions. Requires an active OnStar® subscription.
4. Requires an active OnStar® subscription.
5. Requires iPhone® or Android™ platform and active OnStar® subscription.
